Profile

Full-stack developer with 14+ years of experience delivering scalable web and mobile applications using React.js, Node.js, TypeScript, and Azure. Proven expertise in leading cross-functional teams to ship high-performance solutions, optimizing architecture for scalability and efficiency. Passionate about leveraging modern frameworks and cloud technologies to drive innovation.

Technical Skills

- Frontend: React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Micro Frontends, React Native
- Backend: Node.js, Express.js, GraphQL, Python
- Cloud & DevOps: Microsoft Azure
- Databases: SQL

Professional Experience

Associate Director

UBS, Pune, India | *Feb 2024 – Present*

- Led development of the Client Advisor Workbench using React.js, empowering financial advisors with tools for personalized wealth management.
- Led development of the Admin Platform tool built for internal Advisors to manage master data of the Advisor Workbench.
- Drove technical excellence – Cut 15% load time via Tree Shaking and code-splitting, while leading debt reduction initiatives.

Lead Software Engineer

EPAM Systems, Pune, India | *Jul 2023 – Jan 2024*

- Led development of Recruitment Central for Atlassian, a full-stack platform (React.js, Node.js, SQL) that automated job posting and candidate selection, serving 100+ recruiters and reducing hiring cycle time.
- Boosted system performance by 10% by optimizing database queries and implementing Redis caching, enhancing scalability for high-volume recruitment workflows.
- Partnered with cross-functional teams (PMs, recruiters, and engineers) to translate business needs into technical solutions, ensuring alignment with Atlassian's hiring goals.

Projects

Client Advisor Workbench (UBS) | *2024 – Present*

- Developed a React.js-based wealth management platform for 5,000+ UBS advisors, enabling personalized client advice through real-time portfolio analytics and document collaboration tools.
- Consolidated 10+ legacy tools into a single platform to streamline advisor workflows.

Recruitment Central (EPAM + Atlassian) | *2023 – 2024*

- A full-stack (React.js/Node.js/SQL) hiring platform for Atlassian, automating job posting to offer workflows for 100+ global recruiters.
- Replaced manual tracking spreadsheets with a unified digital solution for Atlassian's recruitment teams.

Lennar Nova (Mindstix + Lennar) | *2022 – 2023*

- Developed Lennar Nova - a homebuilder monitoring platform (React/Node.js/GraphQL) tracking land allocation to home purchase for 500+ field auditors and sales concierges.
- Automated manual reporting workflows across Lennar's 50+ communities.
