---

## Profile

- Full-stack engineer with 14+ years of experience building scalable web and mobile applications using React, Node.js, Python, and Azure.
  - Hands-on experience building AI-powered utilities, local AI agents, knowledge onboarding systems, and integrating Gemini and DeepSeek APIs into practical applications.
- 

## Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Micro Frontends, React Native
  - **Backend:** Node.js, Express.js, GraphQL, Python
  - **AI:** Cursor, GitHub Copilot, Cline, Ollama, Gemini/DeepSeek APIs, Prompt Engineering, Local LLM & Agent Workflows
  - **Cloud & DevOps:** Microsoft Azure
  - **Databases:** SQL
- 

## Professional Experience

Associate Director

**UBS, Pune, India** | Feb 2024 – Present

- Leading development of **Client Advisor Workbench**, a React platform for wealth management advisors serving 5,000+ users.
- Led development of an internal **Admin Platform** for client advisor data management.

Lead Software Engineer

**EPAM Systems, Pune, India** | Jul 2023 – Jan 2024

- Led development of **Recruitment Central** for Atlassian using React.js, Node.js, and SQL.
  - Partnered with product and engineering teams to deliver scalable hiring workflows.
- 

## Projects

### **Client Advisor Workbench (UBS) | 2024 – Present**

React-based wealth management platform serving 5,000+ advisors, consolidating 10+ legacy tools into a unified platform.

### **Recruitment Central (EPAM + Atlassian) | 2023 – 2024**

Full-stack recruitment platform automating hiring workflows for 100+ global recruiters.

### **Lennar Nova (Mindstix + Lennar) | 2022 – 2023**

React/Node.js/GraphQL platform tracking the homebuilding lifecycle across 50+ communities.

---

## AI & Personal Projects

### **Knowledge Onboarding Agent**

Built a local **RAG-based AI agent** using **Ollama** to ingest, index, and analyze personal blog content through natural language querying.

### **Data Analysis Agent**

Built a local AI data analysis agent that translates natural language queries into executable Pandas operations for CSV analysis using **Ollama-powered LLMs**.

### **AI-Assisted Development Workflow**

Using **Cursor, Copilot, Cline, and local LLMs** for coding, debugging, research, and productivity workflows.
